Experience

Olo | New York, New York | Mar. 2020 – Present
Staff Engineer/Engineering Manager

- Managed multiple teams and projects, successfully stewarding company-wide engineering initiatives and collaborating with Product and Design cross-functionals to deliver new ordering features to end-users
- Lead development of hybrid mobile app using CapacitorJS, replacing legacy mobile apps and saving over $2MM in estimated engineering costs
- Pioneered new methodologies for effective end-to-end testing of complex customer workflows, leveraging Playwright to reduce time to deploy new tests

projekt202 | Addison, Texas | Mar. 2018 – Mar. 2020
Director of Technology

- Lead architect for over $5MM of development work, delivering successful, on time outcomes for multiple clients
- Created new tool for estimating work to ensure accurate planning and messaging during the sales and delivery processes

Capital One | Plano, Texas | Feb. 2017 – Mar. 2018
Manager, Design Technology

- Spearheaded information architecture and UI component library creation for the expansion of dealer platform handling over $500MM in loan originations
- Championed Agile methodologies to foster collaboration and transparency between design, development and product teams

projekt202 | Addison, Texas | Sep. 2015 – Feb. 2017
Managing Architect

- Architected design system for multi-billion dollar enterprise client, providing a roadmap for user interface unification across a diverse product suite
- Evaluated potential team members' cultural fit, technical proficiency and consulting skills to grow development team

Drewloomer.com LLC | Bloomington, IN | Aug. 2007 – Sep. 2015
Freelance Front-End Architect

Hook Studios | Ann Arbor, MI | Sep. 2012 – June 2014
